

Health Content Curator Internship

Internship title: Health Content Curator Intern

Organization: ASU SolarSPELL Initiative (Solar Powered Educational Learning Library)

Location: Tempe; and/or remote

Type of internship: For credit or non-paid; approximately 10 hours per week

Application deadline: November 12, 2023; applications will continue to be accepted and reviewed every week until the position is filled.

Start date: January 8th, 2024

Description:

SolarSPELL is seeking motivated interns to curate regionally-relevant, open access, educational content for the health collections in the SolarSPELL library.

Potential content curation project areas are included below. In your application, please indicate if there are specific projects that you feel you have the skillset for because this will strengthen the application.

SolarSPELL is a global educational initiative at Arizona State University that combines solar-powered technology, relevant content, and local capacity building. We work to build internet-ready skills and improve educational opportunities around the world. Our offline digital library is designed to bring educational content to resource-constrained locations that may lack electricity, internet connectivity, and/or traditional libraries. The SolarSPELL library emits an offline WiFi hotspot, to which any WiFi capable device (smartphones, tablets, laptops) can connect and freely, and safely, surf thousands of resources that are carefully curated and continually improved to meet local information needs. More information on SolarSPELL can be found at solarspell.org.

This internship offers an exciting opportunity to contribute to improving the quality of educational information available to students, teachers, and health workers around the

world, whose communities may lack electricity and/or access to the internet. Your contributions will be brought to the field and used by health workers, potentially within months of your internship!

Interns will be expected to attend an orientation session and content curation training workshop at the beginning of the semester, and weekly virtual check-ins throughout the semester. Ideal candidates will be detail-oriented and proactive in their content curation tasks.

1) Nursing and Midwifery

- a) Review current collection of resources related to nursing and midwifery and identify content needs, especially with regards to our current implementation partners.
- b) Curate open access content across various medical topics that support nursing education with regards to our current implementation partners.

2) Pharmacology

- a) Review current collection of resources related to pharmacology and identify content needs, especially with regards to our current implementation partners.
- b) Research content sites and begin curating open access content that supports our Pharmacology collection within the Health library.

3) Community Health

- a) Review current collection of resources for health workers and nursing students that may be using community health resources to support their learning both in the classroom and in their clinical rotations. Help develop this collection by curating new content that is relevant and localized for our library users.
- b) Review current collection of community health resources that are more focused on patient education or will be used by community health workers in rural community clinics. Help develop this collection by curating new content that is relevant and localized for our library users.
- c) In addition to helping develop our general community health collection, specific help is needed in adding more HIV/AIDS content to our Health library by reviewing any current content and curating more localized HIV/AIDS content per feedback from our library users.

Other general tasks may include:

- Feedback on current user interface and library organization/navigation
- Metadata work, including tagging and organizing of content within the library database
- General research on regions and countries of implementation
- Checking content websites we regularly curate from for any new content

How to apply: If you are interested in applying for this position, please submit a resume and cover letter to Cassie Barrett at cbarre38@asu.edu. All documents should be in PDF format and follow the naming style of [LastName_FirstName_DesiredPosition]
