

Arabic Library Metadata Developer Internship

Position title: Arabic Library Metadata Developer

Organization: ASU SolarSPELL Initiative (Solar Powered Educational Learning Library)

Location: Tempe Campus and/or Remote

Type of internship: For credit (Non-paid); approximately 10 hours per week

Application deadline: applications will continue to be accepted and reviewed every week until the position is filled.

Start date: As soon as possible

Description:

SolarSPELL is seeking interns to assist the digital librarian in cleaning and organizing the metadata for our Arabic-language library collection of over 1500 resources. The intern team will perform detailed tasks that require a high level of precision and patience. They will also assist with tagging our content with relevant data and preparing it to be added to our library database. Interns should have prior experience in organizing and cataloging data and an interest in working with large amounts of data. Proficiency in Arabic, Kurdish, and/or Syriac is required.

SolarSPELL is a global educational initiative at Arizona State University that combines solar-powered technology, relevant content, and local capacity building. We work to build internet-ready skills and improve educational opportunities around the world. Our offline digital library is designed to bring educational content to resource-constrained locations that may lack electricity, internet connectivity, and/or traditional libraries. The SolarSPELL library emits an offline WiFi hotspot, to which any WiFi capable device (smartphones, tablets, laptops) can connect and freely, and safely, surf thousands of resources that are carefully curated and continually improved to meet local information needs.

More information on SolarSPELL can be found at solarspell.org. More information about our partnership with AANES can be found here:

<https://solarspell.org/rebuilding-education-during-conflict>.

This internship offers an exciting opportunity to contribute to improving the quality of educational information available to students and teachers in North and East Syria, whose schools may lack electricity and/or Internet access. High-quality metadata in our library database translates to a high-quality library for our users to access. Your contributions will be brought to the field and used by teachers and students, potentially within months of your internship!

Interns will be expected to attend a new intern orientation. Ideal candidates will be detail-oriented, self-starters, and have a desire to work for a department that serves communities from all over the world.

Internship duties will include the following:

- Learning metadata tagging standards for the SolarSPELL project
- Assisting with metadata tagging of new and current library resources
- Assisting with standardizing data to ensure all fields are complete
- Cross-referencing resources to avoid duplicates
- Verifying copyright permission of the resources
- Utilizing Google applications (i.e. Sheets, Docs, etc.)

Essential qualifications:

- Proficiency in Arabic, Kurdish, or Syriac
- Ability to efficiently learn new software for data entry and organization
- Ability to work well independently
- Detail oriented and reliable; a strong and honest work ethic motivates you
- Globally minded; you have a desire to work for a department that serves communities from all over the world

How to apply: If you are interested in applying for this position, please submit a resume and cover letter to Cassie Barrett at cbarre38@asu.edu. All documents should be in PDF format and follow the naming style of [LastName_FirstName_DesiredPosition]
